AACN Standards describe the level of practice or performance expected by the profession of nursing in order to provide excellent and compassionate care. Also available for purchase. Our Documents. AACN Standards For Establishing and Sustaining Healthy Work Environments. AACN Scope and Standards for Progressive and Critical Care Nursing Practice.

Critical Care Nursing
AACN's curriculum guidelines provide a framework for positioning baccalaureate and graduate-degree nursing programs to meet the healthcare challenges of a new century. Nursing deans and faculty nationwide have used the following guidelines produced by AACN and other authorities in designing curricula used to prepare highly qualified nurses for a health system in continual change.

AACN Curriculum Guidelines
The AACN practice guidelines include recommendations for the practice of clinical neuropsychology, and they are not to be regarded as mandatory standards. The guidelines detail consideration of ethical and clinical issues as well as specific methods and procedures for the practice of neuropsychology.

Guiding Principles to Academic-Practice Partnerships. These guiding principles were developed by the AACN-AONE Task Force on Academic-Practice Partnerships in January 2012. The recent passage of the Affordable Care Act (ACA) has created the greatest change in the American healthcare system since 1965. The goal of the ACA is to improve the health of the population through expanded coverage, controlled healthcare costs and improved healthcare delivery systems.

The Guiding Principles to Academic-Practice Partnerships
AACN Practice Alerts are directives to guide evidence-based nursing practice within the context of a healthy work environment. These alerts are based on published evidence and guidelines. AACN creates each alert in collaboration with nursing subject matter experts and completes the process with reviews by nurses like you.

Practice Alerts - AACN
AACN TeleICU Nursing Practice includes revised practice definitions, a refined practice model, and vignettes that demonstrate the impact of tele-ICU. Practice definitions have been updated and expanded to reflect the current state of tele-ICU nursing practice, which reaches 18% of all ICU patients. In addition, this updated document more clearly describes the roles of the tele-ICU nurse, the nurse leader, and the health care organization.

American Association of Critical Care Nurses is more than the world's largest specialty nursing organization. We are an exceptional community of acute and critical care nurses offering unwavering professional and personal support in pursuit of the best possible patient care. AACN is dedicated to providing more than 500,000 nurses with knowledge, support and resources to ensure optimal care for patients and families.

American Association of Critical-Care Nurses - AACN
Abstract. This document is the first set of practice guidelines to be formally reviewed and endorsed by the AACN Board of Directors and published in the official journal of AACN. They have been formulated with the assumption that guidelines and standards for neuropsychological assessment and consultation are essential to professional development. As such, they are intended to facilitate the continued systematic growth of the profession of clinical neuropsychology, and to help assure a high ...

Quality Quality Access the Axon Registry®, quality measures, tools to help meet quality payment program requirements, and patient engagement handouts.

Guidelines - American Academy of Neurology
Further, the Commission on Collegiate Nursing Education (CCNE), AACN's autonomous accrediting arm, encourages innovative practices, including the use of simulation, so long as there are also direct-care clinical practice experiences (all experiences cannot be replaced by simulation). Some state boards of nursing regulate the number of clinical learning hours that can be completed via simulation in schools of nursing within their states.

AACN Statement on the Use of Simulation in Nursing Education
The guidelines and reviews in the AANN Clinical Practice Guideline (CPG) series provide an overview of evidence-based practices for nursing management of specific patient populations with neurological injuries. CPGs and evidence-based reviews are available for free to members and the general public. Please click the "download" button to view the documents.
