Artificial neural network - Wikipedia

A multilayer perceptron (MLP) is a class of feedforward artificial neural network (ANN). The term MLP is used ambiguously, sometimes loosely to any feedforward ANN, sometimes strictly to refer to networks composed of multiple layers of perceptrons (with threshold activation); see § Terminology.Multilayer perceptrons are sometimes colloquially referred to as "vanilla" neural networks ...

Multilayer perceptron - Wikipedia

An artificial neural network (ANN) is a computational model to perform tasks like prediction, classification, decision making, etc. It consists of artificial neurons. These artificial neurons are a copy of human brain neurons. Neurons in the brain pass the signals to perform the actions.
