AVIATION UNIT AND INTERMEDIATE MAINTENANCE REPAIR PARTS ...

A line-replaceable unit, lower line-replaceable unit, line-replaceable component, or line-replaceable item (LRI) is a modular component of an airplane, ship or spacecraft that is designed to be replaced quickly at an operating location. The different lines are essential for logistics planning and operation. An LRU is usually a sealed unit such as a radio or other auxiliary equipment. LRUs are typically assigned logistics control numbers or work unit codes to manage logistics operations. LRUs can
