A luminous, powerful novel that establishes Rachel Cusk as one of the finest writers in the English language A man and a woman are seated next to each other on a plane. They get to talking—about their destination, their careers, their families. Grievances are aired, family tragedies discussed, marriages and divorces analyzed. An intimacy is established as two strangers contrast their own fictions about their

lives. Rachel Cusk's *Outline* is a novel in ten conversations. Spare and stark, it follows a novelist teaching a course in creative writing during one oppressively hot summer in Athens. She leads her students in storytelling exercises. She meets other visiting writers for dinner and discourse. She goes swimming in the Ionian Sea with her neighbor from the plane. The people she encounters speak volubly about themselves: their fantasies, anxieties, pet theories, regrets, and longings. And through these disclosures, a portrait of the narrator is drawn by contrast, a portrait of a woman learning to face a great loss. *Outline* takes a hard look at the things that are hardest to speak about. It brilliantly captures conversations, investigates people's motivations for storytelling, and questions their ability to ever do so honestly or unselfishly. In doing so it bares the deepest impulses behind the craft of fiction writing. This is Rachel Cusk's finest work yet, and one of the most startling, brilliant, original novels of recent years. understand how to write, cite, and formally submit research writing. Seven editions and more than nine million copies later, the name Turabian has become synonymous with best practices in research writing and style. Her *Manual for Writers* continues to be the gold standard for generations of college and graduate students in virtually all academic disciplines. Now in its eighth edition, *A Manual for Writers of Research Papers, Theses, and Dissertations* has been fully revised to meet the needs of today's writers and researchers. The Manual retains its familiar three-part structure, beginning with an overview of the steps in the research and writing process, including formulating questions, reading critically, building arguments, and revising drafts. Part II provides an overview of citation practices with detailed information on the two main scholarly citation styles (notes-bibliography and author-date), an array of source types with contemporary examples, and detailed guidance on citing online resources. The final section treats all matters of editorial style, with advice on punctuation, capitalization, spelling, abbreviations, table formatting, and the use of quotations. Style and citation recommendations have been revised throughout to reflect the sixteenth edition of *The Chicago Manual of Style*. With an appendix on paper format and submission that has been vetted by dissertation officials from across the country and a bibliography with the most up-to-date listing of critical resources available, *A Manual for Writers* remains the essential resource for students and their teachers.

In grade school, she always had her nose in a book. In junior high, the other kids thought she was weird, because she actually liked reading those dusty old novels in literature class. All through high school, Goldilocks dreamed of writing a book of her own someday. But when she went to college, her parents persuaded her to study something practical. Goldilocks hated practical, and secretly she kept reading novels. But she was a very obedient girl, so she did what her parents told her. She got a very practical degree in marketing. After college, she got a job that bored her to tears—but at least it was practical. Then she got married, and within a few years, she had two children, a girl and then a boy. She quit her job to devote full time to them. As the

children grew, Goldilocks took great joy in introducing them to the stories she had loved as a child. When her son went off to kindergarten, Goldilocks thought about looking for a job. But her resume now had a seven-year hole in it, and her practical skills were long out of date. The only jobs Goldilocks could qualify for were minimum wage. She suddenly realized that being practical had made her horribly unhappy. On a whim, Goldilocks decided to do the one thing she had always wanted more than anything else—she was finally going to write a novel. She didn't care if it was impractical. She didn't care if nobody would ever read her novel. She was going to do it just because she wanted to. For the first time in years, she was going to do something just for herself. And nobody was going to stop her.
