Divine revelation is one of the most fundamental of all theological questions. Indeed, some might say, if we could be clear about whether there is a revelation from God - where it is located, what form it takes, and who has the authority to interpret it - we could solve all other theological problems. Although the question of revelation is crucial, it has not received the attention commensurate with its strategic significance in theology. The seminal approaches of Barth, Rahner, and Pannenberg, for example, are conducted at such an abstract and sophisticated level as to be inaccessible to beginners, and although the work of several individual modern theologians is worthwhile, there is a significant lack of comprehensive resources on the topic. Several years in preparation, this volume aims to redress that deficiency. The contributors, originating from England, Scotland, Ireland, the United States, and Canada, represent a spectrum of religious traditions and views. The aim is to provide biblical, historical, contemporary, and reflective resources on the ways in which divine revelation has been understood in the history of Christian theology and is now understood in theological discussion. Ideal for students of theology in universities, colleges, and seminaries, for those attending training courses for the priesthood, and for lay Christians of all denominations, 'Divine Revelation' enables readers to think constructively about this vital topic in a way that is conducive to a critical, informed, and living faith.

Provides methods for learning how to listen to one's inner voice via meditation, releasing blockage, distinguishing divine voices, and developing a personal plan for spiritual fulfillment, in a volume accompanied by a CD containing special guided meditation techniques. Original.

How John Wrote the Book of Revelation is the first of its kind, and introduces genetic literary reconstruction to Biblical studies. It enables the reader to produce prior drafts of Hebrew and Christian Scriptures, thereby allowing the reader to apply the literary science of genetic criticism to a book in the Bible. How John Wrote the Book of Revelation takes the most difficult book to understand in the Christian Scriptures and reveals the sequence in which it was written, from the very first line to the final parallel. This provides the reader, for the first time, with the experience of observing how a Biblical book was written, and does this from an intimate perspective, as though they were looking over John's shoulders as he crafted it. How John Wrote the Book of Revelation is the first book that teaches the reader how to read Revelation the way it was written. After centuries of blind guess work trying to divine meaning, and weak interpretations of symbols, this book finally presents a clear, precise, and consistent method. It is a guidebook to identify all the rich symbols and their meanings within Revelation. Inside the pages of this book is the all-encompassing theory of construction for the book of Revelation. It includes three prior drafts of the book of Revelation, along with hundreds of charts and illustrations. How John Wrote the Book of Revelation is like no other book that has been written before, and sets a new paradigm for all Biblical works.
