One woman's journey through the tumultuous and passionate birth of a new nation.

"Magisterial" (Pankaj Mishra, The New York Review of Books) and "to Urdu fiction what One Hundred Years of Solitude is to Hispanic literature" (TLS) The most important novel of twentieth-century Urdu fiction, Qurratulain Hyder's River of Fire encompasses the fates of four recurring characters over two and a half millennia. These characters become crisscrossed and strangely inseparable over different eras, forming and reforming their relationships in romance and war, in possession and dispossession. River of Fire interweaves parables, legends, dreams, diaries, and letters, forming a rich tapestry of history and human emotions and redefining Indian identity. But above all, it's a unique pleasure to read Hyder's singular prose style: "Lyrical and witty, occasionally idiosyncratic, it is always alluring and allusive: Flora Annie Steel and E. M. Forster encounter classical Urdu poets; Eliot and Virginia Woolf meet Faiz Ahmed Faiz" (The Times Literary Supplement).

They have one summer to find what was lost long ago. "Never settle for less than the truth," she told him. But when you don't even know your real name, the truth gets a little complicated. It can nestle so close to home it's hard to see. It can even flourish inside a lie. And as Chase Walker discovered, learning the truth about who you are can be as elusive–and as magical–as chasing fireflies on a summer night. A haunting story about fishing, baseball, home cooking, and other matters of life and death.

Partition, independence, democracy. This book tells the tale of the birth of two new nations, experienced in the lives -- and deaths of its young citizens. Set in Luknow of the 1940s, Qurratulain Hyder's masterly early novel is a story of kinship, intimate friendships and love in a context of political upheaval. Rakshanda, Peechu, Kiran, Salim, Christabel -- the youthful protagonists are idealistic and enthusiastic, fighting for a brave new world. With the turbulence of partition and independence, the quiet rhythms of domesticity are brutally disrupted. New animosities replace old loyalties, and the merry "Gang" of Lucknow is torn apart as the old order begins to fragment.

San Ginese is a village where God lingers in people's minds and many dream of California, Argentina or Australia. Some leave only to return feeling disheartened, wishing they had never come back, some never leave and forever wish they had. The Fireflies of Autumn takes us to the olive groves and piazzas of this little-known Tuscan village. There we meet Bucchione, who was haunted by the Angel of Sadness; Lo Zena, his neighbour, with whom he feuded for forty years; Tommaso the Killer, the Adulteress, the Dead Boy and many others. These are tales of war and migration, feasts and misfortunes - of a people and their place over the course of the twentieth century. 'I have never read a migrant tale so original, so breathtaking in scope, or so magical. I have not since stopped thinking about the characters in San Ginese.' ALICE PUNG 'Astonishing in the seductiveness and uniqueness of its storytelling. I read it greedily, not wanting to leave San Ginese and return to the real world.' CHRISTOS TSIOLKAS

An illustrated guide to one of the most enduring masterworks of world literature Written in the eleventh century by the Japanese noblewoman Murasaki Shikibu, The Tale of Genji is a masterpiece of prose and poetry that is widely considered the world's first novel. Melissa McCormick provides a unique companion to Murasaki's tale that combines discussions of all fifty-four of its chapters with paintings and calligraphy from the Genji Album (1510) in the Harvard Art Museums, the oldest dated set of Genji illustrations known to exist. In this book, the album's colorful painting and calligraphy leaves are fully reproduced for the first time, followed by McCormick's insightful essays that analyze the Genji story and the album's unique combinations of word and image. This stunning compendium also includes English translations and Japanese transcriptions of the album's calligraphy, enabling a holistic experience of the work for readers today. In an introduction to the volume, McCormick tells the fascinating stories of the individuals who created the Genji Album in the sixteenth century, from the famous court painter who executed the paintings and the aristocrats who brushed the calligraphy to the work's warrior patrons and the poet-scholars who acted as their intermediaries. Beautifully illustrated, this book serves as an invaluable guide for readers interested in The Tale of Genji, Japanese literature, and the captivating visual world of Japan's most celebrated work of fiction.
