students to learn the keys' locations.

How to Teach Keyboarding | Keyboarding Research & Resources

The 10 finger method is a very established technique to efficiently use your computer keyboard. With some practice and the correct finger positions you can type „blindly“ on the keyboard. If you have it down, you can significantly lower your error rate and increase your typing speed at the same time. 1 Hunt and peck

and B; Right index finger - for typing button Y, H, N, U, J and M; Right middle finger - for typing button I, K and ,

The Beginner's Guide to Touch Typing | Tips & Tricks

1. Learn to touch type.
Touch typing is a typing technique in which you always use the same finger to type each key, without looking at the keyboard. It takes some practice to learn, but training these consistent finger motions will enable you to type much faster than you could otherwise.
