leader. America's ambivalence toward military activities in space, however, has the potential to undermine our future security. Many in Washington possess a peculiar regard for space and warfare. Some perceive space as a place to defend and fight for America's vital interests. Others -- whose voices

Where To Download

are frequently dominant and manifested in public rhetoric, funded defense programs, international diplomacy, and treaty commitments -- look upon space as a preserve not to be despoiled by earthly strife. After forty years of discussion, the debate over America's role in space rages on. In light of the steady increase in international
