## Acids And Bases

### Worksheet Answers

In water or a water solution, the solution is acidic if the hydrogen ion concentration is greater than the hydroxide ( $\text{OH}^-$ ) ion concentration, the solution is basic if the hydroxide ion concentration is greater than the hydrogen ( $\text{H}^+$ ) ion concentration, and the solution is neutral when the concentrations are equal. Thus the properties of an acid solution are due to the relatively high concentration of hydrogen ion, and the properties of basic solutions are due to the high concentration of ...
