campus of Cornell University. There they meet the eccentric and brilliant Dr. David Oxford who sheds light on why the vessel has been nearly impossible to find. Could a mere mortal hold the key to finding it? Will an ambitious mafia princess ruin their plan? As the hunt heats up, so does the attraction between Alex and Greer. And as her unique birthright unfolds deeper at every turn, that attraction and the friendships she cherishes will be thoroughly tested. Alex isn't the only one with secrets-some hard to believe; others simply unfathomable.

could destroy them both. She's becoming a force to be reckoned with, making her even more desirable to those who want to control her and exploit her remarkable gifts, including her own family. From the streets of Manhattan to the ancient sites of Ireland, more revelations emerge, and the true nature of the people and the gods in Alex's circle begin to unfold. The closing chapters of The Fitheach Trilogy will bring poignant or fitting conclusions for so many of the people she loves, and finally reveal the truth about the prophecy and the power of three witches in one.

Fitheach blood doesn't just run through the veins-it's a binding contract that can never be broken. Alex Kelley vanished twenty-one years ago-the night her mother was murdered. When she comes home to New York City, she wants just two things: a little peace, and answers

about the unsolved murder and why she was abandoned in the middle of America at the age of eight. Greer Sinclair, an enigmatic stranger who knows a little bit more than he should, just might give her both--and more if she'll let him. What is she? What is he? Who is this beguiling satyr who keeps coming between them? She attracts the otherworldly like moths to a flame. And why does every stranger on the streets of Manhattan want a piece of her and that pendant hanging around her pretty little neck? Maybe the answers are in a peculiar shop in the heart of Greenwich Village where ghosts, memories, and secrets are bursting from the walls and the books and the one person who knows her best. The line between the mundane and supernatural worlds is starting to blur. Which side will she choose? Which would you?

His quest ends in Nantucket, an island overrun with forest, inhabited by a mere two hundred people, who claim to have been transported there from out of time. Only one odd stone house remains standing. Within it, Rudi finds a beautifully made sword seemingly
