Urban fiction, also known as street lit or street fiction, is a literary genre set in a city landscape; however, the genre is as much defined by the socio-economic realities and culture of its characters as the urban setting. The tone for urban fiction is usually dark, focusing on the underside of city living. Profanity, sex, and violence are usually explicit, with the writer not shying away from or watering-down the material. Most authors of this genre draw upon their past experiences to depict

For AA urban fiction and romance especially there are certain areas where money should be spent. These include hiring a good cover designer that will give your book an appealing look. The truth is, potential customers do "judge a book by its cover". You want to send a message that your book is professional and will be worth the reader's time.
